Blank field: Category not applicable (i.e. denomination not supplied to ships).

?: Category not impossible, but the quantity of stamps sold is unknown.

*Includes 845 mk proceeds from sale of unspecified parcel stamps.

**Includes 15 mk proceeds from sale of unspecified parcel stamps.

The pre-1895 records as well as the available 1921 and the post-1927 records, which are as detailed as the other ones, do not mention parcel stamps at all. The 1919 breakdown figures are unfortunately missing. It is presumed that all figures do include the stamps sold by both of the company's ships. The head office did not sell stamps.

Source: The company's financial records in the archives of the Museum of Porvoo.
